

Array Reverse:

```
#include <stdio.h>
```

```
int main() { intarr[]={1,2,3,4,5,6};
```

```
int n = sizeof(arr) / sizeof(arr[0]);
```

```
for(inti=0;i<n/2;i++){ int temp = arr[i]; arr[i]=arr[n-i-1]; arr[n-i-1]=temp;
```

```
}
```

```
prinL("Reversed array: "); for(inti=0;i<n;i++){
```

```
prinL("%d ", arr[i]); }
```

```
prinL("\n");
```

```
return 0; }
```
